\*All support provided between 9AM - 5PM US Eastern time.

*Proficiency Levels*

ATOL<sup>SM</sup> provides results using three proficiency levels, including Below Mastery, Mastery, and Honors. ATOL<sup>SM</sup> proficiency level standards are specific to each grade-based test and are not adjusted for the grade of the student (e.g., a 5<sup>th</sup> grade student administered ATOL Grade 4 Form A would be held to the same standards as a 4<sup>th</sup> grade student administered the same test). Scale scores and a variety of diagnostic reports are also available.

*Bulk Purchase*

An ATOL<sup>SM</sup> Online bulk purchase includes of a full academic year License providing for a specified number of students within a school or district. Licensees have the option of administering multiple assessments to students during the period of the license, such as for charting progress within a school year or tracking changes in diagnostic reports. Purchase of a License with a larger number of student accounts results in a lower per student price. The cost includes all ATOL<sup>SM</sup> tests and applicable Materials, Orientation and Support, depending on the size of the purchase. Up to 10% of any unused student accounts may be rolled over into the following academic year. Student accounts are considered “used” when a student name is entered or uploaded into the system. Student accounts cannot be shared by multiple students; only one student may be tested using a student account.

*Additional Orientation/Training/Support*

Beyond the training and support included with bulk purchases, additional training and support may be purchased in hourly increments:

Additional orientation/training: \$150/hour.

Additional tech support: \$65/hour.

On-site training: \$2,000/day.
